2021 CTPTAC Cybersecurity Workshop Descriptions

<u>DFARS/CMMC Cybersecurity Academy: Awareness Training for Small Business Supplier/Liaison Officers</u>
Participating Organizations: DTC Global/Cross Timbers Procurement Technical Assistance Center/TMAC
Purpose: To equip directors, SBLO's, and Supplier officers with the knowledge and resources necessary to assist suppliers with CMMC certification.

Description:
The Department of Defense's cybersecurity DFARS provision 252.204-7021 Interim Rule, a prelude to the Cybersecurity Maturation Model Certification (CMMC), has been in effect since November 30, 2020. To qualify for new bids, or for subcontracting opportunities, small businesses must NOW be in compliance with this DFARS. However, many small businesses have yet to comply, which has the potential to disrupt your supply chain.

This cybersecurity Academy- designed for Directors, SBLO's, and Supplier officers- will provide training on:

- Understanding the critical differences between DFARS/CMMC requirements
- Understanding the CMMC Level 1 & Level 3 requirements
- Determining CUI, marking, and handling requirements
- Understanding the path to certification and the CMMC Assessor's expectations
- Understanding challenges for officers to meet CMMC practice requirements

This free training will also offer cost saving tips, lessons learned, and reliable resources for guidance about CMMC to pass on to your suppliers.

<u>Cybersecurity Awareness: How to Comply with DFAR 252-204-7012 & NIST SP 800-171 Rev. 2</u>
Instructor: Gregory James
Description: By signing a Department of Defense (DoD) contract, the contractor (prime/sub) agrees to comply with the terms of the contract and all requirements of the DFARS Clause 252.204-7012. The deadline for compliance was Dec 31, 2017. The regulations apply to any company doing business with DoD and its prime contractors. The Cybersecurity Maturation Model Certification (CMMC) Accreditation Board will have auditors who will determine if the contractor is in compliance and issue a certification level for future contract awards.

This workshop will help contractors comply with the DFAR 252-204-7012, and NIST SP 800-171 v2. The workshop includes Self-Assessment, POEMS, System Security Plan, Incident Response Plan and Reporting and Subcontractor Flow Down Requirements. We will also discuss the impending CMMC requirements and potential audit elements.

This free, virtual workshop is for all contractors and subcontractors doing business with the DoD.

CMMCsmart Basics 1: CMMC? What happened to the DFARS 252-204-7012 Requirements?
Instructor: Regan Edens
Description: This free webinar, presented by Regan Edens of DTC Global, is a follow up to the Cross Timbers Procurement Center's (CTPC) Cybersecurity webinar. In this webinar, you will learn:
- If the current Department of Defense (DoD) DFARS 252.204-7012 requirements apply to your company
- About the CMMC rollout timeline
- About which CMMC Level- Level 1 or Level 3- applies to your company

Recommended Prerequisite: The CTPC cybersecurity webinar.

CMMCsmart Basics 2: What's the Big Deal about FCI and CUI?
Instructor: Regan Edens
Description: This free webinar, presented by Regan Edens of DTC Global, is a follow up to the **CMMCsmart Basics 1: CMMC? What happened to the DFARS 252-204-7012 Requirements?** webinar. In this basic introduction to what FCI and CUI is and why it matters, you will:
- Receive an overview of the fundamentals of FCI and CUI- classified information
- Understand the BIG WHY driving DFARS and CMMC requirements
- Understand the risks and the challenges in DFARS and CMMC certification

Recommended Prerequisite: CMMCsmart Basics 1 webinar.

CMMCsmart Basics 3: Overview of the CMMC Framework & Model
Instructor: Regan Edens
Description: This free webinar, presented by Regan Edens of DTC Global, is a follow up to the **CMMCsmart Basics 2: What's the Big Deal about FCI and CUI?** webinar. In this webinar, designed to provide additional details to the **CMMCsmart Basics 2** webinar, you will learn about:
- The CMMC Framework and Stakeholders
- The impact of "maturity" and institutionalization on an organization's CMMC processes, capabilities, and practices
- Key aspects of the CMMC Model

Recommended Prerequisite: CMMCsmart Basics 2 webinar.

CMMCsmart Basics 4: Understanding Requirements for CMMC Level 1?
Instructor: Regan Edens
Description: This free webinar, presented by Regan Edens of DTC Global, is a follow up to the **CMMCsmart Basics 3: Overview of the CMMC Framework & Model** webinar.
This webinar, which is significantly different from the prior CMMCsmart Basics, will focus on the types of data your company will be in possession of and the practices that are required to protect it. Additionally, you will:
- Receive an overview of the fundamentals about FCI and CUI.
- Understand the BIG WHY driving DFARS and CMMC requirements.
- Understand the risks and the challenges in DFARS and CMMC certification.

Recommended Prerequisite: CMMCsmart Basics 3 webinar.

CMMCsmart Basics 5: Understanding Requirements for CMMC Level 3?
Instructor: Regan Edens
Description: This free webinar, presented by Regan Edens of DTC Global, is a follow up to the
CMMCsmart Basics 4: Understanding Requirements for CMMC Level 1? webinar.
This webinar will build on the foundation your company has received from the prior webinars and
will provide additional details that will help your company:
- Receive an overview of the fundamentals about FCI and CUI
- Understand the BIG WHY driving DFARS and CMMC requirements
- Understand the risks and the challenges in DFARS and CMMC certification

Recommended Prerequisite: CMMCsmart Basics 4 webinar.

CMMCsmart Basics 6: Determining, Handling, and Safeguarding CUI?
Instructor: Regan Edens
Description: This free webinar, presented by Regan Edens of DTC Global, is a follow up to the
CMMCsmart Basics 5: Understanding Requirements for CMMC Level 3? webinar.
In this webinar, you will:
- Receive an overview of the fundamentals in determining CUI
- Understand the fundamentals of safeguarding and handling CUI
- Learn the "reasonable expectation rule" for CUI

Recommended Prerequisite: CMMCsmart Basics 5 webinar.
